## PROFESSIONAL SUMMARY

---

Data Science professional with hands-on experience in Data Analytics, Machine Learning, and AI solution development using Python, SQL, Power BI, and Advanced Excel. Skilled in Data Cleaning, Preprocessing, Transformation, and Exploratory Data Analysis (EDA) to derive actionable insights from large-scale datasets. Familiar with statistical analysis, predictive modeling, and machine learning techniques to support data-driven decision-making. Experienced in building dashboards, analytical reports, and visualization solutions for technical and non-technical stakeholders. Worked on real-world projects across agriculture, maritime safety, and workforce analytics domains, delivering impactful business insights. Eager to contribute analytical expertise in a dynamic and growth-oriented organization.

## TECHNICAL SKILLS

---

**Programming Languages:** Python, R, SQL

**Machine Learning & AI:** Linear Regression, Logistics regression, Classification, Clustering, Decision Tree, NLP, Feature Engineering

**Databases:** SQL (CRUD, Joins, Subqueries, Aggregations, Data Extraction, Manipulation)

**Data Analysis Tools:** Power BI, Tableau, Pandas, NumPy, Matplotlib, Seaborn, Advanced Excel (Advanced formulas, Pivot Tables, VLOOKUP)

**Data Analysis (EDA):** Data Collection, Data Cleaning, Data Preprocessing, Data Transformation, Data Modeling, Trend and Pattern Analysis, ETL workflows, Data Pipeline, Time-Series forecasting

**Tools & Platforms:** Microsoft, VS Code, Jupyter Notebook, Google Colab, Scikit-learn, GitHub

## SOFT SKILLS

---

- Analytical Thinking
- Problem Solving
- Communication
- Attention to Detail
- Leadership
- Cross-Functional Collaboration
- Logical Thinking

## WORK EXPERIENCE

---

**Data Science Intern** | CODSOFT (Virtual)

Nov 2024

- Executed 3 end-to-end machine learning workflows using Python, including data extraction, transformation, validation, visualization and preprocessing to ensure data quality and consistency.
- Identified and resolved data quality issues through profiling and validation techniques, improving model prediction accuracy by 10%.

**Executive Member** | Cauvery College for Women – Student Council

Jun 2023 – Apr 2024

- Successfully led more than 15 cross-departmental events and student programs, managing volunteer teams and serving as representative between student bodies and faculty, demonstrating strong Operations Management skills.
- Collaborated across more than 10 departments to deliver concurrent projects on schedule and within budget under tight deadlines, showcasing Organizational and Cross Functional Team capabilities.

## PROJECTS

---

**Skill Gap Analyser** | Python | NLP | Web Application      [Repository](#)      *Jun 2025 – Mar 2026*

- Developed an NLP-based web application to analyze resumes and job descriptions, identify skill gaps, and generate role-specific recommendations with 90% ATS matching accuracy.
- Implemented keyword extraction, and text preprocessing to automate candidate-job alignment and improve recruitment workflow efficiency.

**Oil Spill Detection using AIS** | Python | Anomaly Detection | Streamlit      *Jul 2025*

- Trained an anomaly detection system processing 10,000–50,000 AIS vessel records to identify illegal discharge patterns linked to maritime oil spills.
- Applied systematic feature extraction and data preprocess on a large vessel datasets with more than 10K records, providing useful metrics for environmental monitoring teams, enhancing Supportability of operations.

**Explainable AI using SHAP** | Python | XAI | Scikit-learn      [Repository](#)      *Mar 2025*

- Developed a retail demand forecasting model using XGBoost and time-series analysis on real-world retail datasets to predict future sales trends.
- Integrated SHAP (SHapley Additive exPlanations)-based Explainable AI with feature engineering techniques such as lag features and rolling averages to improve model interpretability and forecasting accuracy.

**Rice Leaf Disease Classification System using MLP** | Python | SQL | MLP      [Repository](#)      *Jun 2023 – Mar 2024*

- Developed and executed end-to-end data workflows across 3 ML projects, performing data extraction, transformation, and loading using Python; ensured data accuracy, completeness, and consistency throughout each pipeline — directly aligning with project development and data validation responsibilities.
- Performed systematic data profiling and validation on real-world datasets, identifying data quality issues and implementing fixes to reduce false predictions by 10% over baseline — demonstrating skills in data reconciliation and quality assurance.

## EDUCATION

---

**M.Sc. Data Science** | Bishop Heber College, Tiruchirappalli      *2024 – 2026*

*CGPA: 8.26 / 10*

**B.Sc. Computer Science** | Cauvery College for Women, Tiruchirappalli      *2021 – 2024*

*CGPA: 8.07 / 10*

**Higher Secondary Certificate (HSC)** | SVR Matric Hr. Sec. School, Tiruchirappalli      *2021*

*Percentage: 88.06%*

**Secondary School Leaving Certificate (SSLC)** | Govt. Girls Hr. Sec. School, Tiruchirappalli      *2019*

*Percentage: 88.2%*

## CERTIFICATIONS

---

- Machine Learning with Python: Foundation — LinkedIn Learning | May 2025
- Data Analytics Job Simulation — Deloitte | June 2025
- Data Science: R Programming Diploma — Udemy | Nov 2024
- Fundamentals of Machine Learning — Microsoft Learn | Sep 2024
- Fundamentals of AI Concepts — Microsoft Learn | Sep 2024

## NOTABLE ACHIEVEMENTS

---

- 1<sup>st</sup> Runner-Up— Paper Presentation, TECHVISTA'26 | Holy Cross College | 2026
- 1<sup>st</sup> Runner-Up — Hackathon, DATA HACK-2K25 | Bishop Heber College | 2025
- 1<sup>st</sup> Runner-Up — Paper Presentation, COLLOQUIUMS 2K25 | VMKV Engineering College | 2025
- 1<sup>st</sup> Runner-Up— Logo Designing, WEB FEST'25 | Holy Cross College | 2025
- Presenter — International Conference 'NEXT-GEN Data Science & AI | Bishop Heber College | 2024
